Na bikos PAPA GOD na witnes bitwin yu en di wef we yu bin yon, we yu no bin get fet pan, pan ol we na yu kompin en yu wef bay agriment. (Mal 2: 13-15 ESV) I don brok in agriment wit in wef.

As tem de go we i de ɔnda di Kɔvinant 2 Gɔd mek tru Mozis difren tin dən bin de bitwin di papa as edman fɔ di os en in kɔntrol/ɔtoriti oba in wef en pikin dən.

Rizin fɔ mared

- Pɔl insay Fɔs Leta Fɔ Kɔrint 7 tɔk to di wan dən we nɔ mared na vas 1 'I fayn fɔ mek man nɔ tɔch uman' en insay vas 2 "Bɔt bikɔs ɔf di temt fɔ du mami en dadi biznes di we aw Gɔd nɔ want, ɛni man fɔ get in yon wef en ɛni uman in yon man" (RSV).
- "We wi tink bɔt di problem we de apin naw i fayn fɔ mek pɔsin kɔntinyu fɔ de lək aw i de. Yu get tayt padibiznes wit uman? Nɔ tray fɔ fri.
- Yu fri (loosed ASV, KJV) [nɔ de na mared stet igen] from wef? Nɔ luk fɔ uman. Bɔt if una mared, una nɔ sin, en if uman we dən dɔn prɔmis fɔ mared, i nɔ sin" (Fɔs Leta Fɔ Kɔrint 7: 26-28a ESV).
- "Bɔt, fɔ mek wi nɔ du mami en dadi biznes di we aw Gɔd nɔ want, mek ɔlman get in yon wef, en mek ɛni uman get in yon man (1 Kɔr. 7: 1-2 KJV).
- "A de tɔl di wan dən we nɔ mared 6 en di uman dən we dən man dɔn day i fayn fɔ mek dən kɔntinyu fɔ mared lək aw a de. Bɔt if dən nɔ ebul fɔ kɔntrol dənsef (ɔva di tin dən we dən lək fɔ du mami en dadi biznes), dən fɔ mared. Bikɔs i bətə fɔ mared pas fɔ bɔn wit pawa" (Fɔs Leta Fɔ Kɔrint 7: 8-9 ESV).

¶ Gɔd bay dizayn insay di krieshɔn prɔses bin tɔk se i nɔ fayn fɔ mek man de in wan en i nid fayn kɔmpin, in kɔmpin, in ɛlda, wef. Na so l mek di man en di uman jɔyn togeda bay di agriment rilayshɔn we wi kɔl mared fɔ satisfay dən bɔdi we dən want fɔ bi kɔmpin en we dən lək fɔ du mami en dadi biznes. So mared na ɔnɔ en nɔto sin.

☒ Na sin fō du wetin yu want fō du mami en dadi biznes apat from mared bay we yu de du mami en dadi biznes (fornication) ḡen kayn.

☒ No rikwayment no de fō mared if dēn ebul fō kontrol di tin dēn we yu want fō du mami en dadi biznes; egz., Pol.

☒ Di wan dēn we nō eva mared, we dōn dayvōs en we dēn man dōn day kin want fō du mami en dadi biznes. Dēn advays dēn fō mared if dēn no ebul fō kontrol dēn mami en dadi biznes.

Mared Kōvinant 2

Malaki bin se na yu wēf bay agriment” (2: 14).

☒ Kōvinant na agriment we de tay en we de bays pan fet en trost pan dēnsef en fō ɔnō dēnsef. Akshon dēn we de agens wetin di agriment se, de brok am bay we i de pwel fet en trost.

☒ Gōd bin mek sōm agriment wit mōtalman we bin se mōtalman fō fetful to am [nō fō wōship ɔda gōd dēn]. Dēn bin de brok dēn agriment ya wit am ɔltem, bot I bin de fōgiv dēn ɔltem we dēn ripent en go bak to am – dēn bin de mek u-tōn na dēn layf.

☒ Gōd et di sin fō dayvōs, fō brok agriment, we na fō du mami en dadi biznes wit ɔda pōsin.

☒ Enitem man brok o sōlv wan pan in agriment dēn na sin. So, fō brok mared agriment na sin.

Sevintin tin dēn de we dēn tōk bot mami en dadi biznes wit ɔda pōsin na Jērimaya, Ozis en Izikel fōtin pan dēn tin ya get fō du wit Izrel en Juda we dēn brok dēn agriment wit Gōd na di spiritual layf. Adultery na fō brok agriment sōntem mo as i kin kōmot from mami en dadi biznes wit pōsin we nōto yu man o wēf na di bōdi layf. brok di mared agriment. So, agriment kin brok bay we pōsin de du mami en dadi biznes wit ɔda pōsin.

Lō fō di man

- “Una nō no, brōda dēn—bikōs a de tōk to pipul dēn we sabi di Lō—se di Lō kin pres wetin i de tōk [is binding – ESV; get dominion-ASV; ligal kōntrakt] oba pōsin jōs as lōng as i de alayv? Bikōs uman we mared, di Lō de tay in man we i de alayv, bot if in man day, i nō go get di Lō we de tōk bot in man” (Lēta Fō Rom 7: 1, 2 - ISV).

☒ Di NASB rid - - -- fri from di lō bot di man.' Mō tru, di Grik tēks se -- '-- from di lō fō di man/man.' Bak, pōsin kin no di kayn we aw dēn lō en kōstōm dēn de bin gi di man oba di uman fō get pawa en fō bi masta. Na lō we, fō tōk tru, i bin lēk di man pas di uman. Na dēn kayn tin dēn de we nō bin ikwal bin de bōku tēm na di kōlchō dēn we bin de trade trade, we bin de trade trade. So dis ‘lō fō di man’ bin alaw man fō rul en ‘lōdship’ pan ɔlmost ol di tin dēn we de apin na di mared.

“I important fō mek wi ɔndastand wetin Pol tōk mo bot na dis vas. Pol nō de ‘lay lō’ bot mared, dayvōs, en mared bak; bifō dat, i de pōynt, to pipul dēn we no gud gud wan bot dēn yon ligal kōstōm, se ɔnda di ligal klaymat we bin de, man bin get wan kayn ‘ligal lordship’ oba in wēf. Di uman bin de ɔnda di ‘lō fō di man’ -- i bin tay am, en i nō bin ebul fō du inseg fō mek dēn fri am we di lō o soshal akseptabl. If in man nō bin want fō fri am, dat min se di wangren tin we i go du na di lō na fō wet fō in day.”

☒ Nōn Roman o Ju lō nō de aplay tide. Bot, i stil na sin fō brok agriment. Di mared agriment dēn we dōn brok kin kam bak bay we yu ripent en fōgiv.

Divos o Put Yu Fayn

• “Böt yu O prist -- 8 dōn tōn bak pan di rod en bay yu tichin yu dōn mek bōku pipul dēn stop; yu dōn pwel di agriment wit Livay,’ na so di Masta we get pawa pas ɔlman se. -- 11 Juda dōn brok fet, dēn dōn du wan bad bad tin na Izrel en na Jeruselēm: Juda dōn dōti di oli ples we Jiova lēk, bay we i mared to ɔda god in gyal pikin -- 13 Wan ɔda tin we una de du: Una ful-ɔp wit Jiova in ɔlta kray wata. Yu de kray en kray bikɔs i nō de pe atenshōn to yu ɔfrin dēn igen o tek am wit gladi at frōm yu an. 14 Yu de aks se, ‘Wetin mek?’ Na bikɔs di Masta de akt lēk witnes bitwin yu en di wef we yu yɔŋ, bikɔs yu dōn brok fet 10 (dealt treacherously – YLT) wit am, pan ɔl we na yu patna [kompan (ASV, ESV), di wef fō yu mared agriment -- 16 Bikɔs PAPA GOD in God fō Izrel se i et dayvɔs (Malakay 2: 8, 11, 13-14, 16). 16 NIV).

¶ Malakay de tōk fōs bōt di brok we dēn brok di agriment bitwin God en Izrel we i kōl sōntin we rili et di agriment bikɔs di man dēn na Izrel bin mared fōrina dēn we de worship aydōl we God strikt wan ban bay dēn agriment wit Izrel .

¶ Dōn i rayt bōt man dēn we nō de du dēn wok ɔnda di mared agriment bay we i sen in wef go i tan lēk se i sen am we i nō gi am sētifiket fō dayvɔs as Malakay bin yuz di Ibru wōd Shalach (sen go) pas kriythurwth (sētifiket fō dayvɔs) So dēn tek am se i dōn trit am bad bay we i nō lēf eni we fō sōpot am o fō satisfay in mami en dadi biznes bay we i nō ebul fō mared bay lō. Vas 16 se i et am en i ayd in kruk en injostis. So, i fos am fō liv (layv) wit man we i nō mared wit so dat i brok in mared agriment fō di man we sen am go fō mek i go get it, klos en say fō slip ivin if mami en dadi biznes nō de insay we go bi doubtful.

(Mat. 5 31-32)

¶ Jizos imply strong wan na Mat. 5: 32 en Mat. 19: 9 se man dēn bin de put dēn wef dēn fō ɔda rizin dēn pas moicheúsei, (fō du mami en dadi biznes wit ɔda pōsin we nōto dēn man) jōs bikɔs dēn at at, fō rizin dēn we bōku pan dēn na bōdi. Bōt fō mek dēn go kōba dēn bōdi en di we aw dēn de tink se i nō izi fō mek dēn gladi, dēn nō bin gi di satifiket fō dayvɔs (we dēn nō get sētifiket, dat min se dēn nō fetful o dēn dōn mared) we mek di uman en in nyu man du mami en dadi biznes wit ɔda pōsin (as i bin stil mared to di man we nō gi di satifiket fō dayvɔs). Den bin jōs “put” di uman nōto dayvɔs. Insay dis tēm insay di Ju pipul dēn istri, di Tora nō bin gri se uman get rayt fō bigin dayvɔs. Na dat mek dēn bin de lēf di uman dēn we bin de dis bad tēm na ligal limbo, dat na fō kōmot na os en os, bōt dēn nō bin fri fō mared ɔda man as i bin stil de na ligal kōntrakt fō mared.15

¶ Di put we dēn put uman we de du mami en dadi biznes wit ɔda pōsin if i nō get bil fō dayvɔs nō go ebul fō “mek” am bi mami en dadi biznes wit bikɔs i dōn ɔlredi du mami en dadi biznes di we aw God nō want as i brok di mared agriment bay we i du mami en dadi biznes wit pōsin we nōto in maredman.

¶ Wan de dil wit tretin 10 bay we i de put fetful wef we no get di satifiket fo dayvcs we de mek i no get tin fo it o say fo slip en we di lo no ebul fo mared we de mek i du mami en dadi biznes wit oda posin bay we i de liv togeda bikos i stil mared.

¶ Tu wod den de we den translet as “send away or put away” uman we get o we no get setifiket fo dayvcs. If di uman we den sen no bin get setifiket fo dayvcs, i bin stil mared en i no bin get eni benefit fo mared lek it, klos, ples fo slip o rayt fo mared. Di we aw i bin de liv bin jos de fo du mami en dadi biznes wit oda posin o fo liv togeda, den kin tek den ol tu as mami en dadi biznes di we aw God no want. Di man bin du mami en dadi biznes wit oda posin bay we i brok in mared kontrakt wit in fetful wef. Fo du dat, den go kol am mami en dadi biznes wit oda posin if i de wit oda man we in man de alayv. Bot if in man day, i no go get da lo de, en if i mared oda man, i no de du mami en dadi biznes wit oda posin.” (Leta Fo Rom 7: 1-3 ESV).

¶ Di test we di rilijon masti sabi bukman den bin de tray fo du na fo mek Jizos pik bitwin tu intapriteshon den; a) dayvcs (put away) fo eni rizin we posin want, b) no fo dayvcs fo eni rizin. Bot noto den wan ya nomo den bin ebull fo du so Jizos bin memba den se we den mared, den get wanwod as wan. We Jizos bin de ansa Mozis we bin alaw fo gi di lo fo dayvcs, i bin tok se na den at at, en den bin de trit den bad. Konklushon

Kristian den kin sin as

- a) Saymon (Akt 2) pruv),
- b) Di broda we komot na Koint (Fo Leta Fo Koint 2);
- c) Di pipul den na Efisos we den bin tel fo put lay lay tok (Leta Fo Efisos 4: 20)
- d) Fo brok agriment bay we den dayvos.

Adulteri, we pōsin brok in mared agriment inklud:

- a) Mami en dadi biznes wit ɔda pōsin we nōto dēn man o wef;
- b) Fō want o fō want pōsin;
- c) Nō gri fō fulōp di bōdi o mami en dadi biznes insay mared;
- d) Fō lēf, sēn o dayvōs yu man o wef we fetful

Enitem we dayvōs apin sin de - dēn dōn brok mared agriment (Fōs Lēta Fō Kōrint 7: 10-14; Matyu 5: 31; Matyu 19: 8, 9). Kristian brōda en sista dēn, nōto jōs di lida dēn, fō advays di wan dēn we de dayvōs o we dōn ɔlredi dayvōs 'fō peshent, fō bia wit sōri-at en du gud' (Lēta Fō Rom 2: 4) en enkōrej dēn fō no di kayn sin we dēn de du.

I tan lēk se no bēnifit nō de insay di skripchō fō di kōnsept fō 'liv insay sin' as a rizulta fō mared bak afta dēn gi yu sētifiket fō dayvōs. I nō tan lēk se di Baybul se fō brok di mared agriment na tin we de kōntinyu fō sin we pōsin kin jōs sōlv bay we i du di sin we na fō dayvōs (fō brok agriment na sōntin we Gōd et – Malakay 2: 14) en mared bak di ɔrijinal man o uman (striktli ban insay di Ol Testament if di ɔrijinal man o uman bin dōn mared bak - Dit. I tan lēk se di Baybul nō mek eni difrēns bitwin di kayn we aw pōsin kin dayvōs we nō gri wit wetin di Baybul se o di we aw pōsin kin mared bak. So, di akt fō dayvōs o mared bak afta dat na mared, nōto di stet we pōsin dayvōs o mared bak. Fō mek di skripchō klin Krays in Bōdi, Gōd in pikin dēn nō go ebul fō trit mami en dadi biznes sin difrēn from ɔda pipul dēn.

If posin we dōn brok di agriment rilayshōnship fō mared nō gri se dēn sin en dēn no ebul fō rayz dēn spiritual kōnshēns te i ripēnt, di wangren tin we lēf na fō "gi da kayn pōsin de to Setan fō pwel in bōdi, so so dat in spirit go sev insay di Masta Jizōs in de" (Fōs Lēta Fō Kōrint 5: 5 NASU). If i nid fō du dis, Kristian dēn nō fō kip kōmpin wit dēn lēk se dēn gladi fō di sin we dēn de du. Na di sem tin kin apin to sin dēn we na fō gridi, fō wōship aydōl (enitin we imōtant pas Gōd), fō tōk bad bōt pōsin, fō drōnk o fō ful pōsin, jōs lēk aw i kin bi wit sin dēn we pōsin kin du wit mami en dadi biznes (Fōs Lēta Fō Kōrint 5: 11). Sin wit di intēnshōn fō aks fō fōgiv afta dēn dōn sin na abit we de nia, if nōto so, di sin we dēn nō go fōgiv

Na di ɔda say, if dēn dōn ripēnt fō di sin we dēn dōn dayvōs, go bak to Gōd en sōlv di prōblem wit Am, dēn fō bi so wēlkōm fō ful-ɔp wit ɔlman jōs lēk eni ɔda Kristian we nō de du wetin rayt en we dōn du eni ɔda sin en we dōn go bak to Gōd. Dēn dōn kam bak as savant we dēn dōn fōgiv en we get rayt padi biznes wit Gōd. Bikōs dēn dōn mek pis wit dēn padi biznes wit Gōd, dat min se wi as Krays in Bōdi fō fōgiv en no kōntinyu fō kōndēm dēn bay wetin wi de du. Oi Kristian fō gladi fō di wan we bin lōs dōn kam bak en i de bak wit Gōd en oī di wan dēn we de insay Krays.

I tan lēk se no Baybul gradeshōn nō de fō feloship o patisipeshon, nōto wan grup de we go ebul fō sav Gōd en ɔda wan grup we dēn nō alaw fō sav. Fō mek di Kristian kōmyuniti o dēn lida dēn nō alaw pōsin fō sav Gōd, dat de agens wetin Krays de tich se oī In pikin dēn na savant en prist fō sav am. Kristian en/ɔ dēn lida dēn kin sin we dēn de aks pōsin fō pwel Gōd in lō fō bi savant. Oi Kristian dēn na savant dēn we get difrēn wok dēn fō du. Dēn de insay Krays o kōmōt insay Krays, dēn fōgiv dēn o dēn nō fōgiv dēn o dēn de na layt o na daknes. Wi oī na sina dēn we dēn dōn fōgiv. Oi di wan dēn we de insay Krays de wit Gōd en in pikin dēn we mōtalman nō go ebul fō stop. Dēn de insay da rilayshōn de bay Gōd in spēshal gudnes bikōs dēn dōn kam ful-ɔp wit dēn yon sin en Krays in blōd dōn klin dēn. Wi fō fōgiv bak. Gōd de fōgiv en if wi nō fōgiv, wi de sin (Jōn In Fōs Lēta 3: 21-24). 32

Føgiv

Den de enkorej ol man en uman fo mared fo mek den no du mami en dadi biznes di we aw God no want. So, mared noto sin. God et divos as den de brok agriment. Na sin. So, us akshon Kristian we gilti fo di sin we i dayvos fo tek?

Fos, ol sin den kin foggiv pas di wan den we no gri fo aks fo foggiv o fo di sin we den de tok bad bot di Oli Spirit. "Na dat mek a de tel una se, den go foggiv enibodi we sin en tok bad bot God, bot den no go foggiv enibodi we de tok bad bot di Spirit. Enibodi we tok wod agens Motalman Pikin, den go foggiv am; Bot enibodi we tok agens di Oli Spirit, den no go foggiv am, ileksef na dis tem o insay di tem we get fo kam" (Matyu 12: 31-32 NKJV). Enitem we Kristian den kam fo no, den don sin den fo korekt den sityueshon, en ripent, fo go bak insay di rayt rilayshon wit God. So, som instrukshon fo de na di Nyu Testament bot wetin Kristian fo du fo mek den foggiv di sin den we i de du.

Na di spiritual mared rileshonship, God kin redi oltem fo foggiv en briq bak bot noto pan eni kondishonal besis. Di wan den we de sin fo kam bak wit ol den at bay we den chenj den layf en fen rilayshon we den don mek bak. Semweso insay posin in bodi mared rilayshonship evri tray fo mek i kam bak fo mek di mared rilayshon kam bak bot noto pan som kondishonal besis.

Luk, we de rikodom wan atitudi en son tem gridi problem we Saymon get, stet den na Akt 8: 20-23 "Bot Pita tel am se, 'Yu moni de pwel wit yu, bikos yu bin tink se den go ebul fo bay di gift we God gi am wit moni! Yu no get pat o pat pan dis tin, bikos yu at no rayt na God in yay. So we yu ripent fo dis, yu wikednes, en pre to God if son tem di tink bot yu at go foggiv yu. bikos a si se den posyin yu bikos yu bita en yu no de du wetin rayt.'" Dis Kristian in at bin bad, i bin ful-op wit sin en i bin nid fo foggiv.

Paul, we no gi boku ditil, rayt insay Fos Leta Fo Koint bot wan Kristian we de involv pan mami en dadi biznes di we aw God no want. I bin kondem am tranga wan fo di posin we de du mami en dadi biznes di we aw God no want en di Kristian den we de foggiv am fo we i don du mami en dadi biznes di we aw God no want bikos den no tek eni akshon fo mek di broda we de sin kam bak na di rayt padi biznes wit God. I tan lek se den no bin tek di tin den we den du fo du mami en dadi biznes di we aw God no want as sin en fo mek den no de nia God. Den bin nid fo ripent from den lok fo lby fo dis broda insay in sin kondishon.

In Seken Seken Leta Fo Koint 2: 10 Pol tok se i foggiv di broda we de du mami en dadi biznes di we aw God no want. Di Koint Broda no bin get pawa igen en chenj di we aw i bin de tink, bikos den bin tel di Kristian den we bin de na di Kointian Choch na vas 7 fo "komfot am, so dat son tem den go swela da kayn wan de wit tumos sorri-at." I klia se, wan Kristian broda bin don sin, leta den ripent am en den foggiv am as Pol tel di oda Kristian den fo korej am.

I de pan Kristian broda en sista den fo gi wan Baybul ansa to di kwestyon, wetin a fo du fo mek den sev o fo mek den sev am o fo mek den sev am o fo mek i sev o fo mek Bi foggivnes. I klia se den fo stop fo sin, ripent' ie, mek wan komplit chenj na layf stayl. Den bin tel di Kristian den we komot na Efisos se "So, den de put lay se, 'Le una ol tok tru to in neba,' bikos wi na memba den na wi kompin. 'Bi veks, en no sin': No mek di san go doej pan yu wamat, o gi ples to di debul. Mek di wan we no tif no tif igen, bot mek i lef am fo wok, i de wok wit in an wetin gud, so dat i go get son tem fo gi di posin we nid am" (Leta Fo Efisos 4: 25-28 NKJV). I tan lek se den bin get wan praktis fo lay, tif en ol gruj. So, fo foggiv di prosis fo sin fo stop.

na fō stop di prōsis fō sin fō fogiv? Nō, bikōs insay Jōn In Fōs Lēta 1: 8-9 Jōn we de rayt to Kristian dēn se “If wi se wi nō get sin, wi de ful wisef, en di tru nō de insay wi. If wi kōnfes wi sin dēn, i fetful en jōs fō fogiv wi wi sin dēn en fō klin wi frōm ɔl di tin dēn we nō rayt.”

I fō klia se Kristian fō no bōt in sin(dēn) fō if pōsin nō no . , aw dēn go stop, kōnfes, ripēnt en chenj.

Fō fri frōm di bon dēm fō iniquity, pōsin in atitudi (di insay man, at, maynd, sēnt fō imōshōn o intelekt) fō want fō mek Gōd gladi bay we i nō de sin en chenj dēn layf fō liv rayt layf. Wan fō kōnfes bak, o gri se dēn sin to Gōd en to di wan we dōn sin agens. Prea na di we fō mek Kristian dēn kōnfes to Gōd dēn nō fetful en dēn want fō go bak to in feloship.

Dis de apin to ɔl di wan dēn we de insay Krays we de du di prōsis fō sin inklud — fōni, tif, lay, vēks, kil, rep, sland, fō tōk bad bōt ɔda pipul dēn, fō jelōs, fō want fō du mami en dadi biznes wit ɔda pōsin, fō dayvōs, fō drōnk o εni ɔda sin. Fō “So a se to una, εvri sin en blasphem go bi fogiv man, bōt di blasfemi agens di spirit nō go fogiv man dēn.”
